

**GOLDEN BEE**

# COMPANY ROADMAP

# INTRODUCTION

Golden Bee aims to build an independent cryptocurrency exchange marketplace and wallet on behalf of bee's that can make it **easier** for any user who wants to buy and sell crypto or keep their assets safe.

We will complete the GB wallet and will complete the integration with our first market and start the next integration with the central exchange. We will take donations for our next project and also start voting for our next project.

## **Why We Love Our Project ?**

So is GOLDEN BEE just for the young investor?  
Of course not, it's actually quite the opposite.

GOLDEN BEE is an opportunity for anyone to invest in a better future, 23% more people are using peer-to-peer payments than prior to the pandemics, Now its time to empowering the youth to take control of their lives is a long term investment in the future of our planet.

The Development Team holds 5% of the total supply which

GOLDEN BEE higher the price, because each transaction will be forfeited 1% Auto add LP 2%, distributed to holders 1% marketing & charity donations goes to 6%

Improved token burn mechanism implemented
